

***Packaging
and distribution
of vegetables***

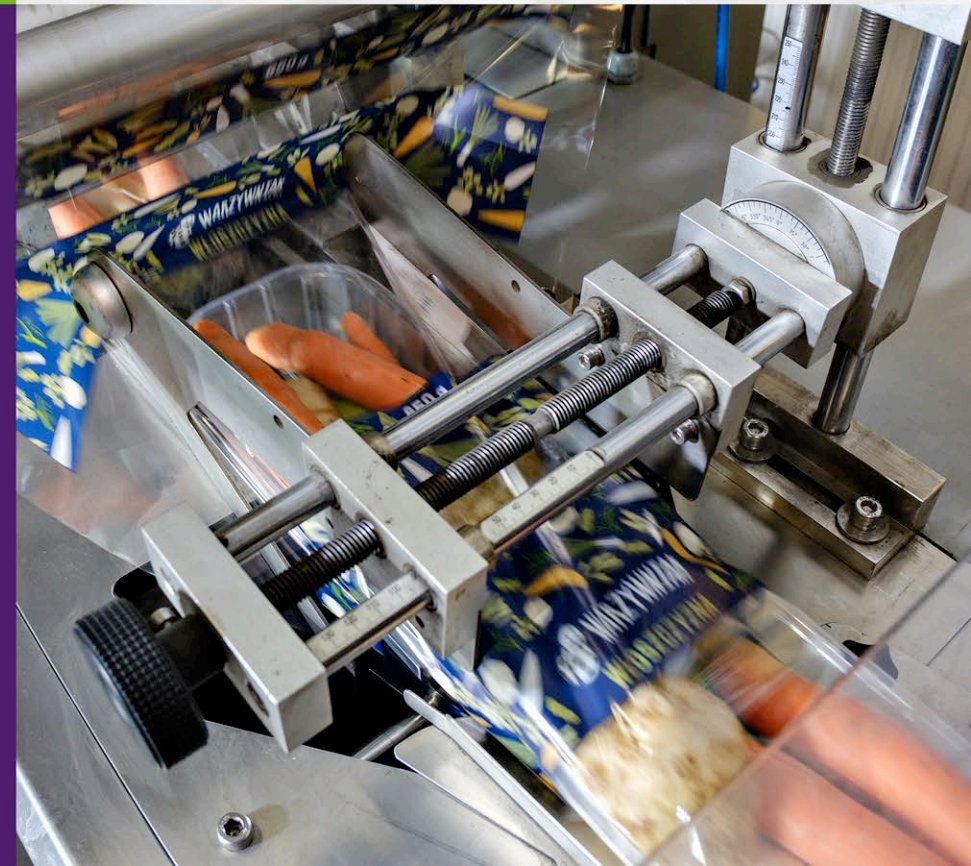

Our extensive infrastructure includes warehousing and production halls, equipped with machinery operated by qualified personnel.

We provide a full range of services, from packaging and storage of products to loading. This allows us to ensure continuity of supply and meet all your needs.

At **GREENGROUP**, we make sure that every vegetable undergoes the required checks. The products we offer are carefully analysed for freshness, appearance and taste, so we are sure that our clients receive vegetables of excellent quality. We have a packing line that enables us to meet even the most demanding needs of our contractors.

WE INVITE YOU TO COOPERATE!

FOOD SAFETY

GREENGROUP's food safety activities are regularly assessed and monitored by renowned certification bodies. It is thanks to that we obtained the prestigious GLOBAL GAP quality certificate, which confirms our commitment and efforts in creating products of the highest quality level.

A RELIABLE PARTNER

Our production activities are based on solid foundations, which makes us a reliable business partner. Flexibility and broad experience allow us to tailor our services to the individual needs of each client, regardless of their scale of operation.

We provide the best terms of cooperation and deliver products of the highest quality, regardless of the size of the company.

TAILOR-MADE OFFER

Continuous efforts and commitment to food safety translate into the quality of our products, as well as the trust of our business partners. Flexibility and extensive experience enable us to tailor our services to the individual needs of each client, regardless of the scale of their business.
